

Who is Aiko solar?

AIKO is a world-leading new energy technology company that focuses on R&D and manufacturing of PV core products and integrated solutions for power generation, storage, usage, providing customers with solar cells, ABC (All Back Contact) modules and scenario-based solutions. Multi-application solutions to fulfill various solar energy demands.

Who is Aiko?

FIND YOUR POWER | AIKO is a global-leading clean energy technology company. Our business mainly focuses on the manufacture of photovoltaic products and all-in-one solutions for various scenarios, including solar cells, ABC (All Back Contact) modules, inverters, battery storage, energy management system etc.

How many followers does Aiko energy have?

AIKO Energy | 96,241 followers on LinkedIn. FIND YOUR POWER | AIKO is a global-leading clean energy technology company.

What is Aiko smart energy?

AIKO's smart energy solutions integrate the philosophies of zero carbon, and craftsmanship to redefine energy for the modern era, allowing the construction of a greener, safer Carbon-Free city. Our Core Values Pursue Cutting-Edge Technology Redefine Photoelectric Efficiency and Quality Aesthetics Build Partnerships for [...]

What is Seychelles' energy policy?

Energy policy calls for 15% renewables by 2030. In June 2013, the first wind farm in Seychelles was officially inaugurated. This 6 MW power plant can produce up to 2% of the Seychelles' power and is located on Mahé Island. It is expected that the wind farm will replace 1.6 million litres of diesel fuel annually.

How is electricity produced in Seychelles?

Electricity for the island nation of Seychelles is primarily produced by diesel generators which must import their fuel (69 MW on Mahe and 12 MW on Praslin). Energy policy calls for 15% renewables by 2030. In June 2013, the first wind farm in Seychelles was officially inaugurated.
