

How much solar power does Slovakia have?

Slovakia has around 472 MW of installed solar PV power generation capacity in 2019. Solar PV is expected to claim 44% of the clean energy capacity needed to generate 2.4 TWh of electricity by 2021. In particular, solar energy provides an important contribution to meet energy needs in the electricity sector.

What is the future of solar photovoltaics in Slovakia?

During the forecast period, the share of the rooftop solar PV is expected to increase, on account of decreasing solar PV costs, and supportive government policies for residential solar PV. Slovakia solar photovoltaics is mainly driven by the residential sector. Slovakia has around 472 MW of installed solar PV power generation capacity in 2019.

Why are new solar PV plants being installed in Slovakia?

Soaring energy prices, new reserved capacities for renewables, and a few incentive schemes, among other factors, are likely to result in new large-scale solar PV plants being deployed in Slovakia, significantly increasing the installed capacity in coming years.

How can Slovakia stay on track with solar PV?

In order to stay on track, Slovakia needs to implement the total of 2,855 MW in solar PV plants by 2030. Hence, this scenario requires a clear action of the Slovak Government and a preparation of an enabling investment environment that would allow for a rise of new solar PV capacities.

What is Slovakia's national energy and Climate Plan?

Slovakia's National Energy and Climate Plan sets an ambitious target of achieving a 19.2% share of renewable energies in gross final energy consumption by 2030.

Will NECP be able to harvest Slovakia's solar potential?

The current Slovakia's NECP projects a solar PV target of 1,200 MW cumulatively installed in 2030. While the NECP does not specify the character of these capacities, it is to be assumed that both ground-mounted and rooftop PV will play a role in harvesting Slovakia's solar potential.

Thanks to our long-term experience with solar power plants, we will provide you a tailor-made solution with the best possible return on investment. ... green energy slovakia s.r.o. a member of Group WEON group, a.s.
