

Objetivos del proyecto: Evaluar las oportunidades y los retos de la integración coordinada de las tecnologías de redes inteligentes en el sistema de distribución de Cabo Verde para aumentar y mejorar la adopción de fuentes de energía renovables y mejorar la eficiencia energética.

Smart Grid Tech na rede de distribuição de Cabo Verde | edp . Carreiras. Histórias. pt. EN. PT. ES. Sobre nós . Acredita no Sol: conheça os nossos projetos solares Saiba mais. EDP. Sobre nós; Estratégias; Política e Compliance; Speak Up; Governo da Sociedade ...

The renewal of the Cabo Verde GEF will enable Cabo Verde to continue receiving carbon credits and sustainable. The approval of Cabo Verde GEF also coincides with the approval of the new regional grid Emission Factor (GEF) for the interconnected power system within the ECOWAS region.

Smart Grid surge como uma alternativa natural aos sistemas elétricos tradicionais, principalmente para países insulares como Cabo Verde, onde o custo de fornecimento de electricidade é muito elevado, impulsionado pela falta de recursos locais e
