

The idea is it should be a pilot for regulated off-grid electrification in Benin, part of a region that historically has failed to capture its huge renewable resources because of inadequate ...

Illoulofin Solar Power Station, is a 50 megawatts (67,000 hp) solar power plant in Benin, whose first 25 MW was commissioned on 19 July 2022, and the next 25 MW is under construction and is expected to come online in 2025.

The objective of the partnership is to support the electrification of rural areas in Benin by deploying stand-alone mini-grids powered by solar photovoltaic energy. The joint venture will get straight to work, delivering a portfolio of 12 solar mini-grids within a year.

GDS International, subsidiary of the Générale du Solaire group, is one of the main French players in solar energy, an independent electricity producer with more than 200 MW of solar power plants in operation and a portfolio of more than 1 GWp projects under development in France, Italy, West Africa, and the Middle East.

A new company aiming to deploy off-grid renewable energy solutions in the African country of Benin will carry out EUR8.5 million (US\$8.8 million) of electrification projects within a year. Les Soleils du Bénin has been ...

A new company aiming to deploy off-grid renewable energy solutions in the African country of Benin will carry out EUR8.5 million (US\$8.8 million) of electrification projects within a year. Les Soleils du Bénin has been launched by three partners: investment platform NäoT Offgrid Africa, GDS International, a subsidiary of French solar PV ...

Our solutions, including wind, solar and hybrid energy, combined with solar applications, make us a privileged partner. Our partners from industrial operators, communities and private investors, independent

electricity producers (IPP) and electric companies.

Les Soleils du Bénin, a special purpose vehicle (SPV) jointly developed by GDS International and Africa Renewable Energy System & Solution ("ARESS"), in partnership with NEEOT Offgrid Africa, aims to construct and operate a portfolio of 12 mini-grids in Benin.
