

Is Albania a good place for solar energy?

Albania gets about 2100-2700 hours of sunshine in a year so it has a great potential for solar energy. Solar energy is easily accessible since most energy comes directly or indirectly from the sun. It could be used for heating and lighting homes, commercial, and industrial buildings.

What is the largest solar power plant in Albania?

In late 2023 the 140MW Karavasta solar power plant was completed, having taken Voltalia of France 15 months to build, it is the largest in Albania to date. A 100 MW solar power project called Spitalla in Durrës area is planned to be built next. Albania has enormous potential for electric energy from wind power.

What is Voltalia doing in Albania?

Voltalia has started doing business in Albania in 2018 with the unsuccessful participation in the first solar tender organized by the Ministry of Infrastructure and Energy of the Republic of Albania ("MIE"). Despite this result, Voltalia has demonstrated great interest in the construction of 2.5 MW FiT-solar PV projects.

Who is Vega Solar?

Vega Solar is a German-Albanian renewable energy company focused on the photovoltaic sector. Our company has managed to leave a significant footprint in this sector due to the strategy focused on creating competitive advantages, as well as the way on enhancing partnership relations inside and outside Albania.

What services does Vega Solar offer?

Vega Solar offers free consulting by preparing a project that suits your specific needs. Installation and configuration by qualified staff and German engineer. Periodic cleaning and inspection of your photovoltaic system with professional equipment. warranty. Invert On Grid by German and Austrian firms leader in the world market.

How many countries does Voltalia operate in?

The Group is active in 20 countries, providing services to its customers worldwide. As of September 30, 2021, Voltalia had an operating and under construction capacity of more than 1.9 GW and a portfolio of projects under development representing a total capacity of 10.7 GW. If playback doesn't begin shortly, try restarting your device.
