

Who is solar future Hong Kong?

Registered Electrical Contractor(REC),specialising in the deployment of Solar Photovoltaic (PV) systems in Hong Kong. Solar Future Hong Kong have completed over 130 projects over the last 4 years of operation ranging from Residential to large Industrial and Commercial Projects throughout Hong Kong. And Maximise Property Use?

Does Hong Kong have solar energy?

The use of green energy is a major trend in countries around the world, and Hong Kong is no exception. The development of solar energy in Hong Kong is easier to implement than other renewable energy sources. Solar energy systems can be divided into grid-connected, off-grid and hybrid systems, all of which are different.

Could Hong Kong sell excess solar energy to the power grid?

Hong Kong households and businesses that produce renewable energy through rooftop solar installations or wind systems could soon sell their excess supply to the city's power grid - and charge up to five times the current retail price. Since 2006 Widex Solar has been a one-stop solar system solutions provider to customers all over the world.

Which solar plan is best for a landlord/homeowner in Hong Kong?

Any one of our Three Plans are beneficial to the Landlord/Homeowner as Hong Kong has excellent Solar Capacity and the FiT rate at present is extremely attractive, guaranteeing the Landlord/Homeowner revenue from their rooftop until 31st December 2033.

Champion Widex Solar Energy International Limited was incorporated on 06-JUL-2020 as a Private company limited by shares registered in Hong Kong. The date of annual examination for this private company limited is between Jul 06 and Aug 17 upon the anniversary of incorporation. The company"s status is listed as "Live" now.

The SolarCare Programme aims to promote the use of solar energy in Hong Kong as well as to develop a community service platform for renewable energy. This programme is an active response to the Government's recent Feed-in Tariff ...

SolarHK is a professional solar energy system company, providing application for CLP/HK Electric "Renewable Energy Feed-in Tariff Scheme" 2022, project design and planning, professional system installation, construction and maintenance ...

The climatic conditions provide an important background for assessing the solar energy potential. Hong Kong

is a high-rise and high-density city with a subtropical climate. Figure 1 shows the monthly average data of the general climatic conditions in Hong Kong over the ...

To encourage the usage of renewable energy, the Hong Kong government proposed the "Feed-in Tariff" (FiT) scheme in October 2018. The two power companies would purchase electricity at a price higher than the prevailing market price from householders who installed solar systems, to present opportunities for the public to invest in solar energy.
