What is a generator cover?

These generator covers are a type of canopy or tents that you can attach to any portable generator. No matter how large a portable generator you may have, from 200 watts to 10000 watts, a tent will cover it all from rain and fall. If you're setting the generator beside your home and don't have a separate house, get a storage shed.

What is the best cover for an inverter generator?

Ensure your inverter generator is cared for properly by the Westinghouse woven vinyl generator cover. Scratch-proof and element-resistant, this custom high quality cover is made for long-lasting durability and protection. For use when transporting or storing your product, not while the generator is running.
