In view of Russia's attacks on Ukraine's energy infrastructure, the country will receive EUR500 million to repair damaged energy facilities and 1,000 solar panels and generators, European Commission President Ursula von der Leyen said during the first day of the Ukraine Recovery Conference in Berlin on 11 June.

Help power frontline health and humanitarian needs in Ukraine . Footprint Project is working through on-the-ground partners in Ukraine to distribute and maintain solar generators to critical medical equipment, lighting, communications and relief needs.

The solar generator can demand as much as 1800 watts of power during a charge cycle. I like to limit this to 1300 watts. This lowers gas consumption and noise on the gas generator during a charge cycle. The Delta Max has the ability to provide 3400W of power with ease using X-Boost technology. This allows the concurrent use of power hungry ...
