All this has driven a huge shift to rooftop solar in Lebanon. Between 2020 and 2022, the installed capacity of solar energy across the country multiplied more than eight-fold, largely from rooftop ...

According to Pierre El-Khoury, General Director of the Lebanese Center for Energy Conservation, Lebanon's total solar power generating capacity has increased eight-fold since 2020. Solar panels were available before 2019, but few people opted to install them, since electricity supplied by EDL and private generator providers was cheaper ...
