

Who installed the largest commercial solar installation in Jersey?

SunWorks was contracted by Jersey Electricity to install the Channel Islands' largest solar installation at Jersey Dairy, a total of 1,516 Solar panels. This saw the start of JE's lease scheme for commercial building owners and enabled SunWorks to deliver a world-class commercial solar installation in Jersey.

What do people in Jersey think about solar farms?

Jersey Electricity (JE) is asking people in St Mary what they think about proposals for two solar farms. The solar farms would produce enough energy to power nearly 1,200 homes in Jersey, said JE. Land earmarked for the siting of the panels would continue to be used for grazing and growing crops, it said.

Are there plans to build a solar farm in Jersey?

Concerns have been raised over plans to build six solar farms across Jersey. The first site is nearing completion at St Clement and two other sites have passed the planning stage, with building work expected to begin in early 2025.

Why did Mark & Ian start a solar business in Jersey?

Mark and Ian had to start pushing for a higher volume of installations for the survival of their solar business in Jersey due to its slow uptake. This marked a journey towards focusing on the business side and 'hitting the numbers'. Kevin Keen was appointed as the first Non-Executive Director with sales targets set and accountability held.

Why is solar important in Jersey?

Solar is a vital component of modern homes in Jersey, contributing to the state's renewable energy and energy management. For those focused on the bottom line, solar serves as a safeguard against rising grid electricity costs.

Does Jersey electricity want to protect green space?

Steve Tanner, head of capital delivery for Jersey Electricity (JE), said the company wanted to "protect green space on the island" and "the total of all six sites is only 0.8% of the total agricultural land available". Ms Layzell said: "These fields in St Mary are in the top 50% of land for Jersey Royals.
