

Which solar panels do you use at Panta?

At Panta, we use top-of-the-market solar panels that are extremely efficient and require minimal roof space. We opt for Huasun solar panels and Sungrow inverters. Both companies are renowned worldwide as the leading manufacturers of products for electricity generation from solar energy.

Can Tokelau support itself with solar energy?

Tokelau, an island nation in the South Pacific, is now completely able to support itself with solar energy. Elly Earls met Joseph Mayhew of the New Zealand Aid Programme to find out how this tiny collection of atolls has become almost 100% self-sufficient in less than 12 months.

How does Panta support my solar system?

From tailoring the design of your system to installation, maintenance and after-sales service, Panta will support you throughout the lifespan of your solar solution. Under certain conditions, you may also be eligible for a government subsidy when purchasing a solar electricity generation system.

Are solar panels a good investment in Malta?

We can't stress enough how good of an investment home and commercial solar systems are in Malta. The island has an extremely high sunshine yield, and the right solar system can drastically reduce your electricity bills.

How much electricity does a solar system provide in Tokelau?

Each system alone is among the largest off-grid solar power systems in the world, and together they are capable of providing 150% of current electricity demand in Tokelau, a much higher amount than the 90% that was originally planned for.

Why should you choose Panta solar?

We have found that the combination of Huasun and Sungrow products provides one of the most power-efficient systems available. Our team of technicians are dedicated to their craft. From tailoring the design of your system to installation, maintenance and after-sales service, Panta will support you throughout the lifespan of your solar solution.

With a little preparation, you can confidently call Wallis and Futuna. Remember your exit code, Wallis and Futuna country code 681, and find the right area code. Explore our resources for seamless international communication.

The Oak Ridge solar project in Louisiana, which also supports Amazon operations, marked a significant milestone as Maximo's first utility-scale deployment. Maximo has installed 10MW of solar capacity and is projected to install 100MW by 2025. Maximo will assist in building 5GW of its AES's solar backlog and

pipeline up to 2027.
