

What is a Solar Tiled Roof?

A Solar Tiled Roof is a system that combines solar and roofing functionality into a perfect energy production system without compromising the visual appearance of your home. The building-integrated modules for tiled roofs interlock with nearly all concrete and clay tiles, leaving your home as beautiful as it ever was. Solar Tiled Roof is for homeowners looking to harness solar energy in an aesthetically pleasing way.

Are solar roofs suitable for a church or a villa?

Solar roofs from Solarstone are suitable for both churches and villas. They are equally suitable for churches in the Nordics and villas in the French Riviera. Solarstone® offers competitive prices, making solar roofs a cost-effective option for both types of buildings.

Why should you choose Solarstone® solar tiled roofs?

Solarstone® solar tiled roofs are a cost-effective and modern choice. Solarstone® offers prices that are competitive with conventional on-roof solar installations. Installing a Solarstone® Solar Tiled Roof is easy and efficient, with a simple gabled 60 m² roof being completed in just 1 day.
