

Do solar panels work in New Zealand?

Absolutely! New Zealand has abundant sunshine and generates between 1,700 and 2,100 sunshine hours annually. Some areas, like Nelson and Gisborne, receive as much as 2,400. Solar Panels don't require sunshine; they require daylight, so Solar Panels work year-round, even in the lower South Island.

Are solar panels a good investment in New Zealand?

Solar panel installation can be a worthwhile investment for homeowners and businesses in New Zealand. With the rising cost of electricity and growing concerns about the environment, solar energy offers a sustainable and cost-effective alternative.
