The location at Airok, Ailinglaplap Atoll, Marshall Islands, situated at 7.2786° N, 168.8217° E, presents a highly favorable environment for solar energy production throughout the year ing in the tropics, this location benefits from consistent sunlight and minimal seasonal variations, making it an excellent choice for solar PV installations.

"The Republic of the Marshall Islands (RMI) submitted its second NDC in 2018 at COP 24 in Katowice, making it the first country in the world to do so. The revised NDC set binding targets of reducing greenhouse gas emissions by 32 percent below 2010 levels in or before 2025 and by 45 percent before 2030. Yes, our NDCs are very ambitious.
