Bulgaria has launched a subsidy program worth \$134 million to support households in installing solar panels and solar collectors for their own use. Of this amount, \$76 million is funded by the European Union's Recovery and Resilience Facility, with the remaining \$58 million covered by the Bulgarian government and household contributions.

Solar panels on the roof. One of the first residential projects in Sofia to install solar panels on the roofs of its

buildings was River Park Sofia. It is a complex consisting of over 350 houses located in close proximity to IKEA and Ring Mall.

I just made a 130kW solar system on my warehouse's roof. The whole process took over 2 years to legalize. Bulgaria is very unfriendly towards solar power due to the energy monopoly in the country. It was very bureaucratic and tedious, I was on the verge of giving up quite a few times but I'm happy this shit is over.

The Ministry of Energy of Bulgaria earmarked EUR 30.5 million in grants for replacing inefficient heating devices in households with rooftop photovoltaic panels and solar collectors. Bulgaria is preparing public calls for households to improve their heating with rooftop solar systems, where 83% of the grants worth a total of EUR 30.5 million in ...
