

Can you replace a light fixture with a solar light?

**Windsor Bulb Solar Light** The second and most simple option is to replace the existing lamp post and lamp head. In this situation, you will be replacing the old light fixture entirely, choosing from many options of easily installable stand-alone solar light posts and lamps.

How do I convert a solar light bulb to an electric light?

You'd need to remove the solar panel and battery, then modify the light to connect to a safe and appropriate power source. However, the effort and expense might outweigh the cost of simply purchasing a new electric light. Understanding the voltage of your solar light bulb is the first step in the conversion process.

What are some examples of solar post lights with lamp heads?

Here are some examples of Gama Sonic's beautifully designed Solar post Lights with lamp heads include to choose from: 1. **Orion Solar Post Light** Gama Sonic Orion Solar is a single headed solar lamp post that features a modern look with an urban industrial twist. This solar post light features the innovative "Morph" technology.

Can I convert my solar panel lights to electric power?

As cutting-edge as solar panel lights are, if your geographical location is not suitable for them, you may consider converting your solar panel lights to an electric power source. This process involves wiring an exterior grade transformer to your solar lights.

What is a solar lamp head?

Solar lamp heads come in a wide variety of styles and features. You can choose from different light qualities (such as warm white light vs. bright white light) and added features. Gama Sonic's Victorian Solar Light, for example, has motion-sensing technology, which will brighten the light when movement is detected.

How do I choose a solar post lamp?

Once the post light has been removed, and the pole has been sanded and painted to your preference, choose the right solar post lamp for you that also fits within the pole's diameter. While 3"-diameter lamp posts are a standard size, you can also purchase adapters that will give you more flexibility in choosing a lamp.
