data for off-grid appliances sold in Sierra Leone based on findings from Efficiency for Access market surveys. The profile explores the overall market landscape in Sierra Leone, the common power type, size, price, and warranty of off-grid appliances sold in retail markets, and other findings relevant to sector stakeholders working in Sierra Leone.

However, there is a sizeable potential demand for SHS and off-grid appliances to reach the 80% of Sierra Leoneans living off of the grid. Insufficient data about the quality and performance of off- and weak-grid appropriate appliances hinders the ability of market actors to make informed purchases, investments, and policy decisions, making it ...

that 2,000 off-grid solar appliances were sold in Sierra Leone.¹⁶ According to the State of the Off-Grid Appliance Market report, it's estimated only 2% of rural households in Sierra Leone own a TV and less than 1% own a fan as of 2019. Further, Sierra Leone's market is ...

Findings from market surveys and interviews suggest the off-grid appliance market in Sierra Leone is nascent. The availability of off-grid appliances is limited due to the low penetration of solar home system kits and limited access to credit for consumers and companies.

Since launching in 2016, Easy Solar has brought solar power to over a million people in Sierra Leone and Liberia, which have a combined population of more than 14 million. The company's network includes agents and shops in all of Sierra Leone's 16 districts and seven of nine counties in Liberia.
