

What is French Polynesia's energy transition plan?

French Polynesia's energy transition plan has three main objectives: Change the energy model, by gradually replacing the use of fossil fuels with renewable energies in all activities

How much energy does a PV module produce in Tahiti?

The annual energy output of a single PV module is 256.7 kWh, which corresponds to 7 % of the annual consumption of a typical household in Tahiti. The capacity factor reaches 22.5 %, which makes Faaa a good site for harnessing solar resource. Monthly variations of GHI and k_t . Annual GHI in kWh/m²; retrieved from Global Solar Atlas.

Is Tahiti a good place for solar energy?

This product could then be used for other coastal areas of Tahiti. The annual energy output of a single PV module is 256.7 kWh, which corresponds to 7 % of the annual consumption of a typical household in Tahiti. The capacity factor reaches 22.5 %, which makes Faaa a good site for harnessing solar resource.

Does French Polynesia rely on hydrocarbons?

French Polynesia, like most island territories, is highly dependent on hydrocarbon imports. In 2019, 93.8% of energy consumed in the archipelagos came from imports of various petroleum-based fuels. The renewable energy penetration rate in power generation stood at 28.78% in 2019. This figure has remained stable over the last five years.

Is biomass a source of electricity in French Polynesia?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. French Polynesia: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.

Can a global solar atlas dataset be used in Tahiti?

The Global Solar Atlas satellite-derived dataset shows acceptable relative error when compared to Faaa in situ measurements. This product could then be used for other coastal areas of Tahiti. The annual energy output of a single PV module is 256.7 kWh, which corresponds to 7 % of the annual consumption of a typical household in Tahiti.

French Polynesia, like most island territories, is highly dependent on hydrocarbon imports. In 2019, 93.8% of energy consumed in the archipelagos came from imports of various petroleum-based fuels. The renewable energy penetration rate in power generation stood at 28.78% in 2019. This figure has remained stable over the last five years.

Newrest is committed to the energy transition in French Polynesia. One of its flagship initiatives is the

deployment of 420 solar panels on the island of Tahiti, and here we explore the details of ...

IN FRENCH POLYNESIA: 2019 EDITION FOCUS ON PRIMARY ENERGY CONSUMPTION % 8 3 10.2 ktoe = e t a r 1.9 ktoe c n 0.6% d n e consumption 19.3 ktoe e D 6.1% 0.3 ktoe 0.1% Fuel p e y 9 . Diesel 22.4% 137.7 ktoe ... hydraulic power and solar radiation PEC is expressed in tonnes of oil equivalent (toe), unit that

French Polynesia COUNTRY INDICATORS AND SDGS TOTAL ENERGY SUPPLY (TES) Total energy supply in 2020 Renewable energy supply in 2020 95% 5% Oil Gas Nuclear Coal + others Renewables 79% 0% ... Solar PV: Solar resource potential has been divided into seven classes, each representing a range of annual PV output per unit of capacity

French Polynesia: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. ... Renewable energy here is the sum of hydropower, wind, solar, geothermal, modern biomass and wave and tidal energy. Traditional biomass - the burning of charcoal, crop ...

Through the links below you can access detailed information about how the Total Solar Eclipse will be visible from the major cities of French Polynesia: Faaa; Mahina; Paea; Papao; Papeete; Pirae; Punaauia; Browse Solar Eclipses. Select a decade to visualize all the solar eclipses happening in the selected time interval: Upcoming; 1900-1909; 1910 ...

Which upcoming lunar and solar eclipses are visible in French Polynesia, and what do they look like? Sign in. News. News Home; Astronomy News; Time Zone News; Calendar & Holiday News; Newsletter; Live events. World Clock ... Partial Solar Eclipse. Sep 21, 2025. Total Lunar Eclipse. Mar 3, 2026. Partial Lunar Eclipse. Aug 28, 2026. Partial Solar ...

Over the course of May in French Polynesia, the length of the day is gradually decreasing from the start to the end of the month, the length of the day decreases by 16 minutes, implying an average daily decrease of 31 seconds, and weekly decrease of 3 minutes, 38 seconds.. The shortest day of the month is May 31, with 11 hours, 18 minutes of daylight and the longest day ...

A tailored solar power forecasting system for optimized grid management in Tahiti, French Polynesia © Steadysun S.A.S 2023 Damien Raynaud, Pierre Besson, Elena Escudero-Ramos, ...

As much as I loved WWOOFing on a black pearl farm in French Polynesia [WWOOF being short for World Wide Organisation of Organic Farms], it was our weekly trips to Ahe's village that I looked forward to the most -- for the change they offered to our routine and for the chance to be a part of the community.

One of the world's most exclusive and sumptuous island resorts is now even more heavenly. Set on a private motu (or islet) in the shadow of Mount Otemanu, the acclaimed Four Seasons Resort Bora Bora has recently

completed a ...

One of the world's most exclusive and sumptuous island resorts is now even more heavenly. Set on a private motu (or islet) in the shadow of Mount Otemanu, the acclaimed Four Seasons Resort Bora Bora has recently completed a property-wide enhancement, adding eight new overwater bungalow suites, bringing the total number of overwater rooms to a remarkable 108.

June 10 (SeeNews) - China-based Shunfeng International Clean Energy Ltd (HKG:1165) said Wednesday it has agreed to develop solar photovoltaic (PV) and other clean energy projects in French Polynesia.

In French Polynesia during September average daily high temperatures are level around 84°F and the fraction of time spent overcast or mostly cloudy increases from 24% to 38%. ... The average daily incident shortwave solar energy in French Polynesia is gradually increasing during September, rising by 0.5 kWh, from 5.9 kWh to 6.4 kWh, ...

Explore French Polynesia's vibrant festivals, from Papeete's dances to Bora Bora's fire shows, in a cultural journey across paradise. ... each bite is a step further into the heart of Polynesia. The Aquatic Playground: Snorkeling and Watersports. ... From solar-powered lodges to resorts that implement waste reduction programs, the options for ...

In Papeete, French Polynesia (latitude: -17.5324608, longitude: -149.5677151), solar photovoltaic (PV) generation is highly suitable due to the abundant and consistent sunlight throughout most of the year. The average daily energy ...
