Floating solar technologies make use of unoccupied bodies of water, such as lakes or artificial basins, to locate and produce solar power. Proponents of the technology say that it could scale up the use of renewable power significantly, particularly in countries that have large populations and limited spare land, such as in many Asian nations.

Cubico Sustainable Investments has announced the start of commercial operations at Crossett Solar Park, a 132MWdc [megawatts direct current] solar photovoltaic (PV) facility in Ashley County, Arkansas. This is the second solar PV plant Cubico has successfully launched in the past 12 months.
