Climate change is a real challenge and it has been witnessed in Sri Lanka more than ever, so we need to move away from traditional hydropower generation to solar, wind, biomass, new initiatives with battery storage facilities so that we can sustain energy requirements." said Hon. Kanchana Wijesekera, Minister of Electricity and Energy.

The arrest in the pace of cost declines hit the industry with some shock, coming after BNEF found some pack prices below US\$100/kWh as early as 2020. It has been "another year where battery prices closely followed raw material prices," and the dynamics of why and how prices are falling have shifted, according to BNEF analyst Evelina Stoikou.

In the US, 7.2GW of utility-scale storage projects saw delays last year due to rising battery costs. Image: NextEra Energy Resources. The global energy storage capacity has been on the increase as a total of 16GW was added last year, equivalent to a 68% of year-on-year growth, according to BloombergNEF (BNEF).

The global average price of lithium-ion battery packs has fallen by 20% year-on-year to USD 115 (EUR 109) per kWh in 2024, marking the steepest decline since 2017, according to BloombergNEF's annual battery price survey, unveiled on Tuesday.

As one of the leading solar energy providers in Sri Lanka, we keep our prices clear and unhidden. You decide how much you invest depending on your requirement. We support you with technical data and analytics. Mono PERC. 10. Year Warranty. 10. Year Warranty. System Capacity. Generation/Units (kWh)

BNEF's findings follow a similar, UK-focused study by Vivid Economics that found that wind and solar could provide more than 60% of total electricity by 2030 with support from battery storage ...

Lithium-ion battery pack prices dropped 20% from 2023 to a record low of \$115 per kilowatt-hour, according to analysis by research provider BloombergNEF (BNEF). Factors driving the decline include cell manufacturing overcapacity, economies of scale, low metal and ...
