### SOLAR PRO Sri Lanka s5 solarfoot

#### What is the SolarFoot?

The SolarFoot is a simple and cost-effective pedestal for L-Foot (not included) attachment of rail-mounted solar PV systems. Its unique design is compatible with all rail producer L-Foot components, ensuring a durable and weathertight solution for the life of the roof.

#### How do I install a solarfoot?

Call your Authorized S-5! Distributor for current pricing. No surface preparation is necessary. Simply wipe away excess oils and debris; peel the release paper, align and apply. Determine the location of the supporting structure of the roof. Install screws through the pre-punched holes in the SolarFoot into the structure below.

#### Can solarfoot be attached to a wood deck?

Designed to straddle minor striations in your roof panel for attachment into decking or structure, can be fastened into a variety of substrates, including the wood deck, wood timber purlins or steel purlins. SolarFoot is compatible with almost any trapezoidal rib, exposed-fastened profile. Minor Box: \$4.31 Qty: 70 Master Box: \$4.23 Qty: 210
