News 2 July 2023 Dominica, a small island nation in the Caribbean, has been making significant strides in recent years to transform its energy market and infrastructure. With a population of just over 70,000, the country has been heavily reliant on imported fossil fuels for electricity generation. However, recognizing the potential of its abundant natural # News 2 July 2023 Dominica, a ...

But the electricity mix - the balance of sources of electricity in the supply - is becoming increasingly important as countries try to shift away from fossil fuels towards low-carbon sources of electricity (nuclear or renewables including hydropower, solar and wind). These interactive charts show the electricity mix of the country.
