

Recharge from mains or solar. SUNBOX is modular, upgradeable, customisable and allows for a gradual growth path to less dependence on conventional power supply by using solar panels and rechargeable batteries to power your appliances. SPARKBOX & SHOPBOX is similar to SUNBOX but excludes the solar option for recharging the power pack. ...

Sunbox however was designed as an entry system to solar integration and specifically for short term (load shedding) use. This means that the default panel(s) is(are) not capable of sustaining the full load capacity of the inverter on its own. Additional panels and controllers can however easily be added to SUNBOX to enhance the recharge capability.
