

Why is solar power important in Chile?

Solar power in Chile is an increasingly important source of energy. Total installed photovoltaic (PV) capacity in Chile reached 8.36 GW in 2023. Solar energy provided 19.9% of national electricity generation in Chile in 2023, compared to less than 0.1% in 2013.

Who is Sunder energy?

Meet with a knowledgeable representative from Sunder Energy. Our mission at Sunder Energy is to give people the power to change the future. We are dedicated to helping homeowners and protecting our planet. Our team is driven by a mission-oriented culture and a strong commitment to making a difference.

Is there an alternative to solar energy in Chile?

Chile has begun to explore an alternative. Both Cerro Dominador and the Alba Project are powered by so-called solar salts, extracted from the Atacama Desert, composed of potassium nitrate and sodium nitrate. When melted and kept in a liquid state, they allow energy to be stored.

Is Sunder a good company?

Sunder is an amazing company and have proven success in residential solar for over one decade. From the qualification process to installation and beyond they are very professional and thorough in installing residential solar. 5 stars, highly recommend! Simplify Your Journey to Energy Independence with Sunder!

How much solar energy does Chile need?

Chile's DNI is 3,800 kWh/m² in the Atacama desert, the world's highest solar resource for CSP projects. The region is not subject to sandstorms. Variable renewables, PV and wind, increasingly supply the grid, and to complement these renewables, flexible dispatchable generation, such as is provided by CSP with thermal energy storage, is needed.

Does Chile have a solar thermal tower?

Chile's Atacama desert is home to the only solar thermal tower in Latin America. The imposing 240-meter construction is one of the pillars of the country's ambitious green energy program that began in 2019 and aims to completely replace fossil fuels by 2040.

Solplanet anticipa un futuro lleno de energí;a solar en hogares y empresas. Nuestros inversores de alta calidad son fáciles de instalar y usar. Ofrecemos: o Inversores híbridos o Inversores monofásicos o Inversores trifásicos o Cargadores EV o Baterías o ...
