

Can a solar company offer solfit?

If you are a Solar Company looking to offer Solfit to your domestic customers, you can produce system designs on Easy PV and purchase through Midsummer wholesale. If you have a larger commercial project on which you would like to specify Solfit on.

Why should you choose solfit solar panels?

Discover Solfit's innovative roof-integrated solar panels designed for both domestic and commercial applications. Our patented interlocking design ensures a watertight seal without the need for plastic trays or complicated flashing systems. Perfect for seamless installations and elegant aesthetics.

What is a solfit in-roof panel?

Solfit's domestic in-roof panel doesn't need plastic trays or complicated flashing systems. Embrace simple installations and stunning aesthetics. Solfit's unique interlocking design creates a completely watertight seal. Making it the only solar panel, on the market, that can be used for over-cladding leaky commercial roofs.

Are solfit roof panels fire rated?

Our simple low profile design has made raised rails, clamps, gaps and pigeon guards completely redundant. SolFit's panels, with B Roof (t4) certification, are the only fully compliant fire solution for UK installers. We have designed our system to work specifically with UK roof types.

Who are sungift solar?

Whatever size or shape your project is, or if you simply need guidance on the best renewable energy options for you, our in-house team of experts can help. SunGift Solar are the South West's leading solar panel installer and are the highest independently rated renewable installer in the UK.

Does solfit look good on a building?

Not only does Solfit look good on any building, it's also simple and quick to install meaning that you will make savings on labour costs, hit energy targets and help protect our beautiful but fragile blue planet. So go on, why not join us on our mission of changing the world, one roof at a time? WHY SOLFIT?

Solar power represented only a very small part of electricity production in the United Kingdom (U.K.) until the 2010s when it increased greatly. The sudden and rapid increase of solar power can be attributed to the fact that most of the new installations in that decade were subsidized with a feed-in tariff (FIT), as well as the fact that the cost of photovoltaic panels was ...

Testimonials

Personal Trainer at Sunfit Cranleigh · I got into running about 12 years ago after having twins. I loved how it made me feel inside and out so I started a running club. From there I wanted to give more so in 2012 I became a personal trainer and in 2015 a sports massage therapist.
Living a healthy lifestyle is important to me. Eat well, exercise and enjoy life.

Sunfit inverter battery is a rechargeable battery that integrates a solar cell with battery power storage. the inverter batteries are rechargeable batteries which have been developed specifically for use in photovoltaic systems. sunfit deep cycle inverter battery is specially designed for optimum performance, very long life, and

high reliability. these are eminently suitable for a wide ...

Solar power has a small but growing role in electricity production in the United Kingdom.. There were few installations until 2010, when the UK government mandated subsidies in the form of a feed-in tariff (FIT), paid for by all electricity consumers. In the following years the cost of photovoltaic (PV) panels fell, [1] and the FIT rates for new installations were reduced in stages ...
