To help get a Solar Package that most suits you, we would need to carry out an assessment looking at the appliances, their wattage and usage. This is an essential step which ensures you get the solar most suited and adequate for your needs.

Solar power in Switzerland has demonstrated consistent capacity growth since the early 2010s, influenced by government subsidy mechanisms such as the implementation of the feed-in tariff in 2009 and the enactment of the revised Energy Act in 2018.
