

How many PV modules are in a solar container?

The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems. The lightweight, ecologically-friendly aluminium rail system guarantees a mobile solution with rapid availability. at full power.

What is a mobile solar container?

Mobile Solar Container is also a great storage option for PV panels while not in use. Automatic hydraulic systems. It wouldn't be possible to create such a convenient system without the highest quality hydraulics. The entire system is designed by our engineers with long-standing experience in special mobile constructions.

What makes a mobile solar container a 'off-grid' solution?

With self-sufficient 'Off-Grid' solutions the optional SIM card gives you complete control - independence, mobility and flexibility. The mobile solar container contains 200 PV modules with a maximum nominal power rating of 134kWp, and can be extended with suitable energy storage systems.

Where can a mobile solar container be shipped?

You can easily ship it to any location in the world. In order to improve container mobility, we recommend additional container lifting jacks. Mobile Solar Containers open up new possibilities in areas with limited access to electricity. Easy transport combined with ease of use makes it a perfect solution to satisfy energy needs in remote areas.

Why should you choose a mobile solar container?

Thanks to its robust hydraulics containers are always ready to unfold the panels within minutes. Convenient levers make it even easier to operate for only one person. Mobile Solar Container is also a great storage option for PV panels while not in use. Automatic hydraulic systems.

What is a manual version of a mobile solar container?

A manual version of our Mobile Solar Container provides excellent value for money. Quick unfolding is possible thanks to a convenient scissor frame. Manual unfolding. The Scissor frame, mounted on the wheels allows for easy deployment on-site. Piece of a level ground is all you need to prepare this unit to work.

Mobile Solar Containers revolutionize energy access. Compact & portable, they integrate foldable photovoltaic panels for swift deployment. Overcoming bulkiness of traditional mobile stations, these containers offer efficient power supply, enhancing conven

Our mobile power system is a container-based power supply system combining solar modules, a lithium-ions battery storage and an emergency generator as 24/7 backup in a clever comprehensive solution. The solar wings generate ...

SunBOX 35A - mobile solar container. This container is created to achieve the highest level of efficiency. Thanks to its solar tracking system, it always keeps the PV panels properly oriented. This solution lets you avoid any significant power drops during the day thus get the most out of ...

Our mobile power system is a container-based power supply system combining solar modules, a lithium-ions battery storage and an emergency generator as 24/7 backup in a clever comprehensive solution. The solar wings generate environmentally-friendly solar power.

The Faber Solar-Frame &#174; is a mobile solar system for container tops. The systems can be flexibly integrated into existing grid infrastructures. The consumers are directly supplied with solar power. The on-site feed-in control prevents - unless otherwise desired - a feed-back into the power grid.

The Mobil-Watt &#174; is a solar plant equipped in an ISO sea container, CSC approved. This container includes a pre-wired and pre-cabled conversion storage unit. Advantages: Mobile solution fully Plug and Play, no civil works needed; System fully pre-wired, pre-assembled and pre-tested with insulated and air-conditioned control room

We sell a container including fold-up aluminium solar wings, each made from 8 solar panels, providing 2.4kW power and wired to the pre-fitted technical room inside the container. We offer a highly portable container, designed as a shop space, to load portable batteries, to filter water and sell clean water & energy.

The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems. The lightweight, ecologically-friendly aluminium rail system ...

The Mobil-Watt &#174; is a solar plant equipped in an ISO sea container, CSC approved. This container includes a pre-wired and pre-cabled conversion storage unit. Advantages: Mobile solution fully Plug and Play, no civil works needed; ...

The Faber Solar-Frame &#174; is a mobile solar system for container tops. The systems can be flexibly integrated into existing grid infrastructures. The consumers are directly supplied with solar power. The on-site feed-in control ...

Mobil-Grid&#174; 500+ solarfold is a 20 Feet ISO High Cube container, with CSC certification, which integrates a plug and play pre-wired deployable and redeployable solar plant The strong points of the Mobil Grid&#174; 500+ solarfold: ...

Mobil-Grid&#174; 500+ solarfold is a 20 Feet ISO High Cube container, with CSC certification, which integrates a plug and play pre-wired deployable and redeployable solar plant The strong points of the Mobil Grid&#174; 500+ solarfold: Solution fully pre-assembled and pre-wired; Very high capacity in a 20 Feet

container (130 kWp)

We sell a container including fold-up aluminium solar wings, each made from 8 solar panels, providing 2.4kW power and wired to the pre-fitted technical room inside the container. We offer a highly portable container, designed as a shop ...

The Mobil-Grid ® is an ISO-standard, CSC-approved maritime container that integrates a photovoltaic power plant, ready to be deployed and connected, with integrated control cell and batteries. Insulated, air-conditioned, pre-wired and pre-tested technical room; Pre-assembled modules per set of 8 panels (3 to 3.5 kWp/wing)

SunBOX S - construction for mobile solar power. A manual version of our Mobile Solar Container provides excellent value for money. Quick unfolding is possible thanks to a convenient scissor frame.
