

Are Tejas Borja Solar Roof tiles compatible with flat tiles?

Tejas Borja SOLAR roof tiles are perfectly integrated into flat tile roofs from the Tejas Borja "Flat" range. Download the SOLAR Roof Tiles Brochure MONOCRYSTALLINE Large-format flat roof tile with integrated solar energy system on the ceramic support for perfect integration into the roof.

Does Tejas Borja use solar energy?

Thanks to these technological developments, Tejas Borja has expanded its catalogue to include a range of products which harvest solar energy. These products integrate perfectly into the flat ceramic tiles in the "Flat" range so that they have minimal impact on the original design of the project.

What makes a Tejas Borja a durable roof?

Durability and performance over time is reinforced by the structure of the product itself and the use of glass-glass panel (double tempered glass) that ensures a durable and watertight encapsulation. Find out more about: Tejas Borja SOLAR product range | Products that are perfectly integrated into flat tile roofs from Tejas Borja "Flat" range.

What is Tejas Borja?

In this context, Tejas Borja is joining a new revolution in roofing by having developed a single product which combines both style and energy efficiency. Thanks to these technological developments, Tejas Borja has expanded its catalogue to include a range of products which harvest solar energy.

What can Tejas Borja DO FOR YOU?

Exclusive to Tejas Borja, this innovative high-definition digital printing system can create finishes never before used on ceramic roof tiles, reproducing textures as varied as slate, wood, stone, marble, and oxide.

Are there renewables in the Faroe Islands?

"In the Faroe Islands, we are blessed with renewables: we have wind, hydro and some sun in the summer; we also have tidal and wave power where we can see great potential," says Nielsen. Since announcing its green vision in 2014, SEV has already done a lot to increase the share of renewables in its energy mix.
