

Where can solar power be installed in Turks & Caicos?

Solar-derived power is increasing in popularity, with many private installations visible throughout the country, especially on new Turks and Caicos villa projects. Several local companies specialize in both supply and installation of alternative energy systems. The Fortis TCI electricity plant on Providenciales.

Can Turks and Caicos use solar power?

The Turks and Caicos Government and Fortis TCI are currently reviewing the electricity legislation to enable Turks and Caicos residents to use the solar power they produce to offset their power consumption (rather than sell everything back to Fortis at their pre-agreed rate).

Who owns Turks and Caicos electricity?

For the Turks Islands of Grand Turk and Salt Cay, electricity generation was run by Turks and Caicos Utilities (TCU), a government-owned entity. Fortis Turks and Caicos (FTCI), a subsidiary of Canadian utility holding company Fortis Inc., acquired P.P.C and AEP in 2006, and concluded an acquisition of TCU in 2012.

What is the Electricity Standard in Turks and Caicos?

The electricity standard in the Turks and Caicos is 120v, 60Hz and U.S. style power plugs. Solar-derived power is increasing in popularity, with many private installations visible throughout the country, especially on new Turks and Caicos villa projects.

Will Fortis TCI install a solar array in North Caicos?

Fortis TCI announced in 2017 that 1 MW of solar capacity is scheduled to be installed in the islands via the utility company, which would include a 700 kW array on North Caicos and 300 kW throughout the other islands. These projects are ongoing. There are two approaches for persons wishing to install a solar array at their residence or business:

Who owns the electricity in South Caicos?

Separately, Atlantic Equipment and Power (AEP) acquired an exclusive license for South Caicos which is due to expire in 2036. For the Turks Islands of Grand Turk and Salt Cay, electricity generation was run by Turks and Caicos Utilities (TCU), a government-owned entity.

Green Revolution was formed by Paul Chaplin and Jim Dunlop in 2011, they are based in the Turks and Caicos Islands. Since their formation the company has completed many projects both residential and commercial in scale, throughout the region. These projects are saving residents of the Caribbean hundreds of thousands of dollars each year.

On some of the small isolated cays, there are dense patches of pear cactus. This may be the reason why these islands support colonies of the Turks and Caicos Islands Rock Iguana--an omnivore that feeds on cactus. A discussion of coastal vegetation in the Turks and Caicos unfortunately should include mention of the invasive Australian pine.
