

What is zinc8 energy storage?

Zinc8 is positioned at the forefront of advancing zinc-based energy storage technology with its innovative multi-patented product, branded as Zaeras(TM), a zinc-based energy storage technology that leverages the intrinsic advantages of zinc for enhanced efficiency and cost-effectiveness.

Who is zinc8 energy solutions?

Zinc8 offers energy storage solutions to utilities, commercial and industrial sectors, micro-grids, and renewable energy developers. View contacts for Zinc8 Energy Solutions to access new leads and connect with decision-makers.

What is zinc8 & how does it work?

Zinc8, utilizing its multi-patented Zaeras(TM) technology, whether deployed independently or as a facilitative technology, presents opportunities for achieving peak demand reduction, capitalizing on time-of-use arbitrage, engaging in value stacking programs, and entering the distributed long-duration energy storage domain.

Will zinc8 change its name?

Zinc8 will change its name to "ABOUND Energy Inc." effective at the opening of trading on January 31, 2024. The change of name has been accepted by the Canadian Securities Exchange ("CSE") and approved by resolution of the Company's Board of Directors.

Why should you choose zinc8?

At Zinc8 we specialize in providing scalable, environmentally friendly, long-lasting energy storage solutions. Our multi-patented Zaeras(TM) Flow Battery technology uses zinc-air chemistry, to store and deliver electricity on demand, without the restrictions or environmental risks associated with today's market leaders.

Are zinc8 energy solutions' forward-looking statements reasonable?

Zinc8 Energy Solutions believes the material factors, expectations and assumptions reflected in the forward-looking statements are reasonable at this time, but no assurance can be given that these factors, expectations and assumptions will prove to be correct.

With a cost-effective solution for energy storage, clean energy is made reliable and available as and when required. The Zinc8 energy storage system is based upon unique patented zinc-air battery technology. Energy is stored in the form of zinc particles, similar in size to grains of sand.

The concept of Zinc8 Energy Solutions' technology was born in the heart of Silicon Valley in 1998. After years of relentless testing and multiple iterations to our product, Zinc8 accumulated 280,000 man-hours of R&

D, secured 20 patents, and gathered an extraordinary team of engineers that share the same vision.
