

Does Timor-Leste have access to energy?

Access to energy remains a concerning challenge for many in Timor-Leste. The centralised nature of the local electricity supply chain has traditionally kept consumers reliant on the national grid to overcome chronic energy shortages.

Is a solar-powered Grid a good idea in Timor-Leste?

With the new UN reforms, the United Nations in Timor-Leste, under the leadership of the Resident Coordinator has now started lighting the way with its solar-powered grid which has begun to give maximum dividends. A powerful 300 kWp photovoltaic system is producing 400,000 kWh of clean electricity annually, filling critical gaps in energy supply.

Can solar power reduce electricity costs in Timor-Leste?

Timor-Leste is a country with great potential, and with proper use of solar energy, we can reduce electricity costs by 30-40%. "We thank the Japanese Government and UNDP for their assistance, particularly for the installation of solar panels in rural health posts.

What is Timor-Leste's green energy transformation project?

Launched in 2023 and set to run through 2025, this transformative project has the aim to help Timor-Leste on stepping into the Green Energy Transformation journey, for a more sustainable, inclusive development for all. The installation of solar panels at INFPM is a part of output 2 of this project implemented by UNDP.

Is there a market for roof-top solar energy systems in Timor-Leste?

Australia's Market Development Facility (MDF) and ITP Renewables conducted an assessment of the potential market for roof-top solar energy systems in Timor-Leste.

What does a solar technician do in Timor-Leste?

Technicians in Timor-Leste have experience in small-scale, off-grid solar energy systems. Commercial or industrial scale installations are more complex and appropriate technical capacity is scarce.
