

According to Lightsource bp, it is the first utility-scale solar project for the Caribbean island nation. Once up and running, the solar farm will generate around 300 GWh of electricity per year, or enough to power some 42,500 Trinidadian homes, the press release reads.

The solar project is being constructed by consortium partners bp Alternative Energy Trinidad and Tobago (bpATT) and Shell Renewables Caribbean (Shell), and once operational, will provide up to 112MWac from two sites - Brechin Castle and Orange Grove.

We offer the widest range of solar powered products right here in Trinidad and Tobago. From solar generators to solar water heaters, solar water pumps, solar AC units, street lights, water purification systems and more. With free site visits, we at Trifactor Solar can guarantee the right products for your sustainable energy needs.

The solar project is being constructed by a consortium made up of bp Alternative Energy Trinidad and Tobago (bpATT) and Shell Renewables Caribbean (Shell). Lightsource bp is the construction manager for the project. The project is expected to produce approximately 300,000MWh of green electricity per year.
