

Does Trinity solar install solar panels on the east coast?

Trinity Solar has been installing solar panels on the East Coast for nearly two decades. Here's how the long-tenured company compares with the rest of the industry. While the residential solar industry is no longer in its infancy, a company that started installing solar in 2004 is one of the old guard.

Is Trina Solar a good solar company?

As one of the leading solar photovoltaic manufacturers in the world, Trina Solar delivers a smart, industry leading solution for year energy needs. Ranked as one of the world's most bankable solar manufacturers by Bloomberg New Energy Finance, Trina Solar is the manufacturer you want for your solar panels.

Does Trinity solar install qcells solar panels?

Trinity Solar installs Qcells solar panels, although it could install something else if a customer requests it, said Kristen Drigon, a spokesperson for Trinity Solar. The widely used residential solar panels from Qcells, one of the largest solar panel manufacturers in the world, have top efficiency ratings from 20.6% to 20.9%.

How powerful are Trina Solar panels?

The company's most recent breakthrough panel achieved a maximum power output of 740.6 Watts. Alas, you won't be able to install those on your roof, but the residential panels are still adequately powerful. Trina Solar currently offers two solar panel lines for residential solutions in the U.S.: the Vertex S/S+ and the Residential line.

Is Trinity solar a good company?

That's Trinity Solar, which formed a decade earlier, focused on HVAC. It's now one of the 10 largest solar companies installing residential solar panels in the US. The solar panels, inverters and battery options Trinity offers are of good quality, with strong warranties (and are popular choices for other companies, as well).

What technology does Trina Solar use?

For its residential solutions, Trina Solar uses monocrystalline solar cells with multi-busbar, PERC, and bifacial technologies. Multi-busbar: A busbar is a copper electrical conduit that connects solar cells and is known to increase durability, efficiency, and flexibility.
