

Founded in 1956, Nour Batteries is the first company in Tunisia to specialize in the design, manufacture and distribution of batteries. Nour Batteries provides diversified and comprehensive ranges to suit all types of vehicles &quot;passenger, commercial, agricultural, public transport vehicles, and maritime vessels.&quot;

May 20, 2021: Bulgarian lead-acid and lithium battery maker Monbat on May 12 agreed a deal to buy 60% of the Tunisian battery firm Nour for EUR10.3 million (\$12.6 million). The transaction, to be financed from issuing bonds and the firm's own funds.

Now the deal has been finalised, Monbat plans to double production in Tunisia to one million starter batteries annually -- boosting exports, which it said in turn should "effectively mitigate" the risks of increased costs from volatile electricity and natural gas prices in the European markets.

their renewable energy potential, such as Tunisia. The objective of this report is to look into the potential of Battery Energy Storage System (BESS) development in Tunisia, in line with national efforts towards a clean and sustainable energy transition as well as ensuring the optimal use of energy sources and improving energy security.
