

FortisTCI is set to start construction on the first of two solar plus battery microgrids following a groundbreaking ceremony at its property in Kew, North Caicos, on Friday, July 14, 2023.

We invite you to watch our video highlight to see how we're making strides in reducing fuel dependence, lowering electricity costs, and supporting a cleaner, more sustainable future for the Turks and ...

The solar plus battery microgrids are among several strategic investments that FortisTCI is making to meet growing energy demand and accelerate the transition to renewable energy, reducing carbon emissions and lowering energy costs over time.

To propel the TCI into an era of clean energy, FortisTCI will invest \$8m to install the country's first solar plus battery microgrids to power 30% of the electricity supply on North and Middle Caicos and 91% of the electricity supply on Salt Cay in 2024.

FortisTCI will invest \$8 million to install the country's first solar plus battery microgrids to power 30% of the electricity supply on North and Middle Caicos and 91% of the electricity supply on Salt Cay in 2024.

FortisTCI, the energy provider in the Turks and Caicos Islands, is making significant strides in constructing the country's first utility-scale solar plus battery microgrid on its property in Kew, ...

Providenciales, Turks and Caicos Islands (Thursday, June 8, 2023) - FortisTCI will invest \$8 million to install the country's first solar plus battery microgrids to power 30% of the electricity supply on North and Middle Caicos and 91% of ...
