

Over the past decade, Türkiye has more than tripled its renewable energy production, has announced an ambitious objective of adding an additional 60GW of wind and solar by 2035, aligned with Türkiye's pledge to become carbon neutral by 2053.

At ZNL Energy, we understand that the future of our planet depends on the development and implementation of green technologies. However, we recognize that the scarcity of minerals is becoming an increasingly pressing issue, as well as the importance of proper health, safety, and environmental focus for the battery industry.

At ZNL Energy, our vision is to create a safer and more sustainable tomorrow through the development and implementation of innovative battery technologies. Our disruptive ZNL-Separator for lithium batteries is a cutting-edge technology providing safety and longer life span.

There is an identified need to set a longer-term energy policy agenda for 2030. Türkiye's reliance on natural gas use has grown along with rising oil and gas imports, leaving the Turkish economy increasingly exposed to the volatility in oil and gas prices. There is an identified need to set a longer-term energy policy agenda for 2030

Bergen, Norway / Bonn, Germany - November 12, 2024 - ZNL Energy AS and High Performance Battery Technology GmbH (HPB) today announced a Memorandum of Understanding (MoU) to leverage ZNL's cutting-edge ZNL-NPx separator technology in HPB's solid-state battery systems.

5 ???; The online workshop titled "Policies and measures for green hydrogen deployment in Türkiye" will be organized by the International Renewable Energy Agency (IRENA) in cooperation with Ministry of Energy and Natural Resources of Türkiye. The workshop will be held on the 11th of December 2024 between 9.30 - 16.30 (Ankara time).

6 ???; Investment Office presented Türkiye's renewable energy growth targets for 2035 and its plans for the clean energy transition to Dutch sector representatives at an exclusive event in Amsterdam titled "Renewable Energy Opportunities for European Partners", part of its investment roadshow covering the

UK, Germany, the Netherlands, and France.

Türkiye is taking center stage in the global nuclear energy landscape! At COP29, the nation joined the declaration to triple nuclear energy by 2050, solidifying its commitment to clean and reliable power. With ambitious targets for large-scale reactors and SMRs, Türkiye is actively pursuing partners
