

What is the Virgin Islands Energy Office?

The Virgin Islands Energy Office (VIEO) is focused on promoting sustainable energy policies in the Virgin Islands through clean energy production and distribution, energy efficiency, transportation, and energy consumption. It achieves this through outreach, financial incentives, training, and technical assistance.

Will the Virgin Islands reduce fossil fuel use by 60% by 2025?

The Virgin Islands, with support from the U.S. Department of Energy (DOE) and the Office of Energy Efficiency and Renewable Energy (EERE), have set a goal of reducing fossil fuel use by 60% by 2025.

How many solar energy systems are installed in the Virgin Islands?

Nearly 1,500 solar energy systems have been installed throughout the territory. 15 MW of distributed solar PV are either in place or under construction. As a result, the Virgin Islands government has authorized \$35 million in funding to install lighting and water retrofits in 34 more schools.

Why should the US Virgin Islands own solar assets?

The US Virgin Islands should invest in solar assets for enhanced portfolio diversification and risk mitigation. WAPA ownership guarantees coverage by WAPA and FEMA during natural disasters, eliminating uncertainties (1. Enhanced Portfolio Diversity: WAPA diversifies its energy portfolio, ensuring a more resilient and sustainable future).

Do St Thomas and St Croix have electricity?

As of late 2014, both St. Thomas and St. John were served by one electrical grid run by the Virgin Island Water and Power Authority (WAPA). St. Croix, however, has a separate electrical grid in the WAPA service area. More than 1,000 distributed renewable energy systems were connected to the WAPA grid.

Is the US Virgin Islands a good place to start a wind farm?

The US Virgin Islands have been recognized as a regional leader in clean energy due to the success of collecting wind resource data for its first commercial wind farm. DOE's National Renewable Energy Laboratory has collected the necessary data for this project.

"It propels us closer to our goal of achieving 30% renewable energy consumption in the US Virgin Islands, fostering a cleaner and greener energy ecosystem," US Virgin Islands Governor Albert Bryan Jr said. According to the EIA, about 80% of the solar that is installed on the islands is distributed rooftop PV, and only 20% utility-scale.

U.S. VIRGIN ISLANDS - Virgin Islands Energy Office Director Kyle Fleming is pleased to announce that coming next month the territory will play host to the 2024 Electric Vehicle S... Explore More. June 25, 2024 VIEO Admin.

This infographic highlights progress the U.S. Virgin islands has made toward meeting its goal of a 60% reduction in fossil fuel use by 2025. Click on the link below to download a full-resolution version.

The U.S. Virgin Islands (USVI), part of the Leeward Islands of the Lesser Antilles, became a U.S. territory in 1917 and is located in the Caribbean Sea, about 1,100 miles southeast of Miami, Florida. 1,2 The USVI has no fossil energy reserves, but does have some renewable resources, particularly solar energy. 3,4,5 The USVI imports petroleum products to ...

Energy Information Administration - EIA - Official Energy Statistics from the U.S. Government The page does not exist for . To view this page, please select a state: The page does not exist for . To view this page, please select ... In 2023, propane generated almost three-fifths of the U.S. Virgin Islands" (USVI) electricity, fuel oil about two ...

T1 - U.S. Virgin Islands 2023 Energy Baseline Report. AU - Olis, Dan. AU - Leddy, Laura. PY - 2024. Y1 - 2024. N2 - This report summarizes the currently available data on U.S. Virgin Islands" energy sector as of December, 2023. It describes primary energy consumption, end uses, energy production, relevant policies, and key challenges, including ...

United States Virgin Islands: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page provides the data for your chosen country across all of the key metrics on this topic.

Honeywell will supply its battery energy storage system (BESS) technology to six solar PV projects in the US Virgin Islands that will take the archipelagic unincorporated US territory to 30% renewable energy consumption.

Project objectives are to develop a modern probabilistic quantitative mineral resource assessment of Puerto Rico, U.S. Virgin Islands and adjacent geologically similar areas that examines the potential for minerals-based economic development and trade within the region.

This visionary partnership is set to transform the energy landscape of the US Virgin Islands through the deployment of cutting-edge Battery Energy Storage Solutions (BESS) across six strategically positioned solar parks. The ...

With support from the U.S. Department of Energy (DOE) and the Office of Energy Efficiency and Renewable Energy (EERE), the Virgin Islands set a goal of reducing fossil fuel use by 60% by 2025. Five years later that goal is ...

572 Full Time jobs available in Virgin Islands on Indeed . Apply to Forklift Operator, Front Desk Manager, Refrigeration Technician and more! ... US Virgin Islands Department of Education. Christiansted, VI 00820.

... Native Energy & Technology, Inc. 4.0 4.0 out of 5 stars. St Thomas, VI. \$19.35 an hour - Full-time

Little Gem Resorts is a collection of island resorts embodying a playful spirit, a timeless outlook, and a trusted commitment to the best of island hospitality. ... The Nantucket Hotel, Winnetu Oceanside Resort on Martha's Vineyard, and Lovango Resort & Beach Club in the US Virgin Islands collectively represent four seasons of employment for ...

U.S. Virgin Islands Energy Road Map: Analysis Eric Lantz, Dan Olis, and Adam Warren. Technical Report NREL/TP-7A20-52360 . September 2011 . NREL is a national laboratory of the U.S. Department of Energy, Office of Energy Efficiency & Renewable Energy, operated by the Alliance for Sustainable Energy, LLC.

U.S. Virgin Islands U.S. Department of Energy Energy Snapshot Population Size 106,977 Total Area Size 350 Sq.Kilometers Total GDP \$3.98 Billion Gross Domestic Product (GDP) per Capita \$35,938 Share of GDP Spent on Imports 101% Urban ...
