Honeywell announced it will provide VIElectron, a CB Loranger Company, its first installment of battery energy storage solutions (BESS) to six solar parks positioned across the U.S. Virgin Islands. The project is expected to boost the islands' decarbonization efforts by fulfilling 30% of its energy consumption through renewable sources.

This visionary partnership is set to transform the energy landscape of the US Virgin Islands through the deployment of cutting-edge Battery Energy Storage Solutions (BESS) across six strategically positioned solar parks. The ...

The solar-plus-storage system is expected to fulfill 30% of the islands' energy consumption needs. According to the Department of Energy (DOE), the U.S. Virgin Islands have heavily relied on fossil fuels to generate electricity in the past. This means residents accrued expensive electricity costs that fluctuated with global oil prices.

Easing the financial hurdles that are barring you from installing an automatic battery backup system at your home or business is the main goal of the VIBES program. VIBES is federally funded through the State Energy Program Bipartisan Infrastructure Law (SEPIL), and is a rebate program that aims to limit the disruption that each power outage ...
