

Why is the Solar Energy Association of Ukraine important?

As the last 2 years have shown, Ukrainians still have to fight for their right to clean energy, so the Solar Energy Association of Ukraine has a public duty to be a place of public opinion and unification of responsible business environment for the inevitability of our state's course to clean and safe renewable energy.

How much solar PV does Ukraine need?

As trade bodies call for Ukraine to reach 50% renewables in its power mix by 2030, it will need to install 17GW of solar PV.

What happened to the south Ukrainian wind power plant?

The prospective South Ukrainian Wind Power Plant sits idle and unfinished. Installed but left uncovered, the massive concrete bases of some of the never-completed towers resemble abandoned archeological digs. Friendly Wind Technologies, the only turbine manufacturer in Ukraine, similarly found itself imperiled.

Will Russia build a new nuclear power plant in Ukraine?

In January, the Energy Ministry announced plans to begin building four new reactors at the Khmelnytskyi nuclear power plant this year-- two using Russian equipment that would be imported from Bulgaria and two using technology from the U.S. company Westinghouse, which would be the first Western-based nuclear reactors in Ukrainian history.

Is Russia targeting Ukraine's energy infrastructure more broadly?

Renewables are not alone: Russia has targeted Ukraine's energy infrastructure more broadly. A UN report estimated that Ukraine's total national generating capacity dropped from 36 GW to 13.9 GW from the beginning of the full-scale invasion to the end of 2022.
