

Does Exide manufacture lithium ion batteries?

This was disclosed by Exide MD Subir Chakraborty after the AGM of the company. This would be in addition to the lithium ion battery facility set up by the company in Gujarat in collaboration with Leclanche called Exide Leclanche Energy. However, the existing facility does not manufacture lithium ion cells and it is more of an assembly unit.

Which Exide Battery is best for your application?

The company has a wide range of batteries available, allowing it to recommend the best technology for the application in question. Exide will launch its high-performance GNB Sonnenschein Lithium in the Middle East for the first time at the event.
