

Au-delà des frontières métropolitaines, ENGIE Solutions a étendu ses implantations sur les territoires d'outre-mer. Cette présence en outre-mer, à travers nos entités locales, permet de répondre aux spécificités insulaires.

The Critical Materials Monitor aims to improve understanding of supply chains essential for the energy transition, the transition to more sustainable energy. It offers insights into the critical ...

SPI Coatings have a range of solutions from corrosion prevention, heat management coatings and moisture management that services the diversity of challenges on site. Many of our products also come with the benefit of energy savings.

Despite its geographic location, the islands are well connected courtesy of the Tui-Samoa undersea cable that connects the islands to both Fiji and Samoa. Regarding energy, Wallis & Futuna depend largely on imported fossil fuels, but has set a target of 100% renewables by 2050.

Energy Insulation Coatings. With the rising costs of doing business, energy efficiency has never been more important. Coatings from Superior Products International II, Inc. reduce heat transfer, in all sorts of places.

Designed for production capacities ranging from 1 to 12 tons per hour, PELLETINDIA delivers turnkey solutions covering every stage of pellet production, from design and equipment supply to installation and commissioning.

The Critical Materials Monitor aims to improve understanding of supply chains essential for the energy transition, the transition to more sustainable energy. It offers insights into the critical minerals required, outlines the components of key technologies, and provides in-depth reserve, production, and trade analysis.

Our comprehensive services include site design, installation, and commissioning, providing a seamless transition to full-scale production. With SERVODAY, elevate your biomass processing capabilities and achieve long-term industry success in Wallis and Futuna Islands.
