

Who is green tech solutions?

Green Tech Solutions is a cutting-edge environmental technology company dedicated to creating innovative solutions for a sustainable future. Our team of experts is driven by a passion for eco-friendly solutions that empower businesses and individuals to make a positive impact on the environment and create a greener future.

What makes GreenTech Solutions a real company?

As a fictional company, the features of GreenTech Solutions' products and services can be described to highlight its focus on environmental sustainability and cutting-edge technology. The company offers a wide range of renewable energy solutions, such as solar panels, wind turbines, and energy storage systems.

Is Western Sahara a disputed territory?

Western Sahara[a] is a disputed territory in North-western Africa. It has a surface area of 272,000 square kilometres (105,000 sq mi). Approximately 30% of the territory (82,500 km² (31,900 sq mi)) is controlled by the Sahrawi Arab Democratic Republic (SADR); the remaining 70% is occupied and administered by neighboring Morocco.

Is Western Sahara a self governing territory?

Previously occupied by Spain as the Spanish Sahara until 1975, Western Sahara has been on the United Nations list of non-self-governing territories since 1963 after a Moroccan demand. [clarification needed] In 1965, the United Nations General Assembly adopted a resolution on Western Sahara, asking Spain to decolonize the territory.

What is the economy of Western Sahara?

Western Sahara's economy is based almost entirely on fishing, which employs two-thirds of its workforce, with mining, agriculture and tourism providing modest additional income. Most food for the urban population comes from Morocco.

Does Western Sahara have phosphate reserves?

Aside from its rich fishing waters and phosphate reserves, Western Sahara has few natural resources and lacks sufficient rainfall and freshwater resources for most agricultural activities. Western Sahara's much-touted phosphate reserves are relatively unimportant, representing less than two percent of proven phosphate reserves in Morocco.
