A brief history of time in Thailand's solar energy \*Reproduced courtesy Pugnatorius Ltd.. 1993: Solar off-grid program for rural non-electrified areas for villages, schools, health care clinics and water pumping. 100% governmental support with regular maintenance, 30 MWp in total. 2007: Introducing of "Adder (Feed-in Premium)" policy for the VSPP and SPP for all renewable ...

Powerwall is a battery that stores energy, detects outages and automatically becomes your home's energy source when the grid goes down. Unlike generators, Powerwall keeps your lights on and phones charged without upkeep, fuel or noise. Pair with solar and recharge with sunlight to keep your appliances running for days.
