

The US energy storage industry's upward growth trajectory has seen another record-breaking quarter, with 2,354MW and 7,322MWh of deployments in Q3 2023, according to Wood Mackenzie. Wood Mackenzie has ...

It covers battery energy storage systems, battery cells, energy storage software and battery raw materials prices. The report will help clients understand the market opportunities and supply challenges that arise while establishing secure and sustainable supply chains for energy storage, and support their energy storage supply chain management ...

The themes include lithium-ion cell components and designs, emerging short- and medium-duration energy storage technologies, power conversion systems (PCS) and battery energy storage systems. This report is the second in the series, focusing on the safety of battery energy storage systems.

This report analyses the cost of lithium-ion battery energy storage systems (BESS) within the APAC grid-scale energy storage segment, providing a 10-year price forecast by both system and tier one component. The report covers major APAC energy storage markets, including China, Australia, South Korea and Japan.
