

FULL CHAIN MANUFACTURING, SEIKO QUALITY YADA has 12 product lines, from seamless steel pipe, welded pipe, pipe fitting, flange to bracket, prefabricated pipe, double-wall pipe, pump tower and module, creating the only fully equipped flexible manufacturing enterprise in China to ensure the quality and quantity of products delivered to customers in various industries.

With the vision of becoming the leader of green marine pipeline equipment integration solutions, in order to maximize customer benefits, YADA is committed to developing upmarket equipment manufacture industry, focusing on providing integrated solutions for advanced ships, marine engineering and clean energy, as well as cost-effective modular ...

206. Supplied double wall pipe for over 206 ships. 559MM. Maximum double wall pipe diameter exceeds 559mm. 40mpa. The design pressure is greater than 40MPa. 35000m. The cumulative double wall pipe design exceeds 35,000 meters

The integrated solutions of chemical tanker cover from principle design, optimization design, prefabricated pipeline manufacture (including pre-insulation inside factory), coating, on-board installation, overall inspection submission to entire ship passivation service, YADA provides a strong guarantee for the project quality and on-time delivery.

YADA Green Energy Solutions Co.,Ltd was founded in 1993, at present it has 150,000 square meters workshop and 12 production lines for welded pipes, seamless pipes, pipe fittings, flanges, prefabricated pipes, heating coils, double-wall pipes, pressure vessels, supports, pump towers and skids, with an annual capacity of 60,000 tons.Yada has ...

YADA has 12 product lines, from seamless steel pipe, welded pipe, pipe fitting, flange to bracket, prefabricated pipe, double-wall pipe, pump tower and module, creating the only fully equipped flexible manufacturing enterprise in China to ensure the quality and quantity of products delivered to customers in various industries.

YADA and MAN Cryo reached global strategic cooperation agreement based on dual fuel supply system for marine projects, which covers LNG, methanol, ammonia, hydrogen, etc., providing customers with the full life cycle services of basic design, detailed design, analysis & simulation, production design, manufacturing,

installation and ...

ZERO INVENTORY SOLUTION One-stop flexible pipe prefabrication solution provider. YADA factory prefabrication is a construction method that completes the prefabrication of pipes, steel structures and related equipment which need massive welding works in the professional workshop, and only carries out a few butts welding on the construction site.

DUAL FUEL SUPPLY SYSTEM SOLUTION. YADA and MAN Cryo reached global strategic cooperation agreement based on dual fuel supply system for marine projects, which covers LNG, methanol, ammonia, hydrogen, etc., providing customers with the full life cycle services of basic design, detailed design, analysis & simulation, production design, manufacturing, installation ...

The Leader of Green Ship Pipeline Equipment Integration Solutions. Yada Green Energy Solutions Co., Ltd. was established in 1993, provides full lifecycle services to customers from principle design, Stress analysis, detail design, components manufacturing, spool prefabrication, skids integration, installation, safety monitoring, operation and maintenance.

YADA was established in 1993, after 30 years of continuous cultivation and exploration, gradually improve the manufacturing capacity of the whole industry chain from primary manufacturing to ...

YADA is one of the first domestic enterprises to provide gas carrier related services, and now has the ability to provide the overall solution service for gas carrier. In the service history of more than ten years, YADA had completed pump towers for large LNG powered ships and won the national first set of award.

UNIT SKID SOLUTION Experienced LNG skid project management team. YADA skid production line has an annual output of 350 sets of skids, providing one-stop solutions from principle design, detailed design, production design, component manufacturing, pipeline prefabrication and skid integration to installation and commissioning, operation and maintenance services.
