Although the exact prices may vary based on specifications and features, potential customers can generally find Growatt inverters at a reasonable cost compared to other brands.

The tricky thing here is I'm signed onto this Solar PPA (\$0 upfront and you pay for KWh produced for 20 years) that restricts any modifications to the solar panels, inverters, and the grid-tie for 20 years (these are, by the way terrible deals, please do not sign one). So I really could not have tied directly into the panels in my case.
